console.log(hello);
```

The image shows a code editor interface with a dark theme. On the left, a file explorer shows a folder named '114-1QZ' containing files 'answer.md' and 'HelloWorld.js'. The 'HelloWorld.js' file is selected and open in the main editor. The code in the file is:

```
1 var helloWorld = "Hello, World!";
2 console.log(helloWorld);
```

Below the code editor is a terminal window. The terminal shows the command to run the JavaScript file and its output:

```
user@30803-25 MINGW64 ~/Documents/Topic1/114-1QZ (main)
$ node HelloWorld.js
Hello, World!
user@30803-25 MINGW64 ~/Documents/Topic1/114-1QZ (main)
$
```

The terminal window has tabs for '問題', '輸出', '偵錯主控台', '終端機', and '連接埠'. The '終端機' tab is active.
